

The **allocation criteria** for external internships are as follows:

1. In the event that there are more applications than places offered at the same institution, the decision will be made based on the average grade for access to the Master's degree (according to the weighting in the pre-registration).

The **specific requirements** to be able to take the external Master's degree internships are:

- 1) You must have a digital certificate to sign the documents.
- 2) You must have a Social Security affiliation number to contribute to them.
- 3) In the case of non-EU students, in order to obtain a Social Security number, you must have regularized residence or, at the very least, have initiated the process of regularizing residence.
